

Trash Regulations – Milieu Service Nederland

The Collection has arranged set trash collection dates with MSN (Milieu Service Nederland) at most chapters.

Please note that all trash should fit inside the designated containers and cannot be placed on the floor area nearby .

MSN will unfortunately not accept any items that do not fit into the designated container and a fine will be received should loose items be placed onto the street area.

If you expect large deliveries resulting in excessive trash (e.g. cartons, plastic fillings etc.) please reach out to our Service Desk via servicedesk@thecollection.inc ahead of time (minimum 1 week in advance).

Our Service Desk will happily assist with arranging an additional pick up moment with MSN on your behalf.

Please note that charges associated with additional trash collection will be invoiced to you directly and amounts will depend on the quotation received by MSN.

Warm Regards,

The Collection Team
